

Quelle: OECD (Hrsg.), PISA 2015. Students' Well-Being (2017), Figure III.5.1

„Achievement motivation is positively related to performance at school and to life satisfaction. On average across OECD countries, students in the top quarter of the index of achievement motivation score 37 points higher in science and reported 0.7 point higher life satisfaction (on a scale from 0 to 10) than students in the bottom quarter of the index.“

OECD (Hrsg.), PISA 2015. Students' Well-Being (2017), S. 94

„Students' motivation to achieve the best they can in school and in their lives in general is one of the attitudes that make a difference.“

OECD (Hrsg.), Equity in Education (2018), S. 107
